

## CENTUM VOCABULA COMPUTATRALIA

### Abbreviaturae:

- abbr. - abbreviatura
- abstr. - abstractum
- adj. - adiectivum
- .g. - exempli gratia
- f. - genus femininum
- indecl. - indeclinabile
- m. - genus masculinum
- n. - genus neutrum
- pl. - numerus pluralis
- subst. - substantivum
- v. - vide
- vt - verbum temporale

- \* abort - vt sustinere (processum vel programma)
- \* address - subst. (memoriae) locus, i m.
- \* assembly language - subst. lingua, ae f. machinalis
- \* binary - adj. binaris, is, e
- \* bit - subst. bitus, i m. (abbr. binaris digitus)
- \* booting-up - subst. initiatio, onis f. systematis
- \* branch - subst. saltus, us m. relativus, conditional branch - saltus condicionalis
- \* bug - subst. mendum, i n.
- \* buggy - adj. mendosus, a, um
- \* bus - subst. magistrale, is n.
- \* byte - subst. octetus, i m. (?)
- \* chip - subst. talus (integratus), i m
- \* command - subst. iussum, i n.
- \* compilation - subst. compilatio, onis m.
- \* compile - vt compilare
- \* compiler - subst. compilatrum, i n. (?)
- \* computer - 1. subst. computatrum, i n 2. adj. computatralis, is, e
- \* connect - vt conectere
- \* connection - subst. conexus, us m.
- \* constant - subst. (valor) constans, ntis m.
- \* coprocessor - subst. coprocessorium, i n. (arithmeticum)
- \* copy - vt copiare
- \* crash - vt cadere, collabi the system crashed - systema cecidit vel systema collapsum est.
- \* cyberspace - subst. cyberspatium, i n.; spatium, i n. cyberneticum
- \* data - subst. data, orum n.
- \* database - subst. datarum ordinatrum, i n.
- \* debugger - subst. emendatrum, i n. (?)
- \* debugging - subst. emendatio, onis f.
- \* delete - vt delere
- \* digital - adj. digitalis, is, e
- \* dimension - subst. tabula, ae f.; matrix, icis f.
- \* directory - subst. (plicarum) index, indicis m.
- \* disk - subst. discus, i m; hard disk - discus durus vel rigidus vel fixus;  
compact disk - discus compactus

- \* disk drive - subst. statio,onis f. discorum
- \* diskette - subst. disculus,i m
- \* download - vt (ex)trahere (aliquid ex reti)
- \* electronic - adj. electronicus,a,um
- \* e-mail - 1. subst. litterae,arum f. electronicae 2. abstr. cursus,us m. publicus electronicus
- \* erase - vt eradere; v. delete
- \* execute - vt v. run
- \* file - subst. scapus,i m; plica,ae f
- \* folder - subst. cooperculum,i n
- \* font - subst. typus,i m.
- \* format - 1. subst. forma,ae f.; compositio,onis f. 2. vt (discum) (con)formare
- \* hardware - subst. armatura,ae (electronica)
- \* hexadecimal - adj. sedecimalis,is,e
- \* homepage - subst. pagina,ae f. domestica
- \* hypertext - 1. subst. hypertextus,us m. 2. adj. hypertextualis,is,e
- \* input - 1. vt (data) inducere 2. subst. initus,us m., input and output - (datarum) initus exitusque
- \* install - vt installare
- \* instruction - subst. iussum,i n.
- \* integer - adj. & subst. (valor) integer,gri m.; integer,gra,grum
- \* Internet - subst. Internetum,i n; Interrete,is n
- \* interpretate - vt interpretari
- \* interpretation - subst. interpretatio,onis m.
- \* interpreter - subst. interpretatrum,i n. (?)
- \* interrupt - subst. interruptus,us m.
- \* IRC - subst. IRC indecl.
- \* jump - 1. vt salire 2. subst. saltus,us m.
- \* key - subst. clavis,is f
- \* keyboard - subst. claviatura,ae f.
- \* library - subst. libraria,ae f.
- \* link - 1. subst. coniunctio,onis f.; ligamen,inis n. 2. vt consolidare
- \* linker - subst. consolidatrum,i n.
- \* linking - subst. consolidatio,onis f.
- \* list - 1. subst. catena,ae f. 2. list owner - moderator,oris m. gregis 3. v. mailing list
- \* listing - v. program
- \* load - vt legere, e.g. the computer loads a file - plica a computatro legitur.
- \* log-in - vt inire
- \* log-out - vt exire
- \* magnetic - adj. magneticus,a,um
- \* mail - v. e-mail
- \* mailing list - subst. grex,gregis m. (Interneti)
- \* memory - subst. memoria,ae f.
- \* modem - subst. transmodulatrum,i n
- \* monitor - subst. monitorium,i n
- \* mouse - subst. mus,muris m; musculus,i m
- \* multitasking - subst. processio,onis f. multiplex
- \* net - subst. rete,is n
- \* netserver - subst. computatrum moderans; moderatrum,i n (?)
- \* node - subst. nodus,i m., an Internet node - nodus Interneti
- \* number - subst. numerus,i m.
- \* operating system - subst. systema,atis n. internum
- \* parallel - adj. parallelus,a,um

- \* password - subst. signum,i n.
- \* pointer - subst. index,indicis m., stack pointer - struis index.
- \* port - subst. portus,us m.
- \* procedure - subst. procedura,ae f.
- \* process - subst. processus,us m.
- \* processor - subst. processorium,i n.; Central Processing Unit - Processorium Centrale
- \* program - 1. subst. programma,atis n.; program listing - textus,us m. programmatis 2. vt programmare
- \* programmable - adj. programmabilis,is,e
- \* programmer - 1. homo programmator,oris m.; programmatrix,icis f.  
2. machina programmatrum,i n.
- \* RAM - subst. memoria,ae f. volatilis, static RAM - memoria statica, dynamic RAM - memoria dynamica
- \* real - adj. realis,is,e, real (floating point) value - numerus (vel valor) realis
- \* register - subst. regestrum,i n.
- \* ROM - subst. memoria,ae f. fixa
- \* routine - subst. v. procedure
- \* run - vt operari, e.g. the program is running - programma operatur; run a program - fac programma operetur
- \* save - vt (con)servare, (data in disco) reponere
- \* screen - subst. scrinium,i n; quadrum,i n
- \* screenmode - subst. modus,i m. (imaginem) exhibendi
- \* serial - adj. serialis,is,e
- \* server - subst. v. netserver
- \* shutdown - vt claudere, the system is shutdown - systema clausum est.
- \* socket - subst. nidus,i m.
- \* software - subst. v. program
- \* sound - subst. sonus,i m., sound generator - sonorum generatrum
- \* spreadsheet - subst. charta,ae f. computativa
- \* stack - subst. strues,is f.
- \* string - subst. series,ei f., character string - litterarum series.
- \* subdirectory - subst. v. folder
- \* subroutine - subst. subprocedura,ae f.; subprogramma,atis n.
- \* system - subst. systema,atis n.
- \* tape - subst. taenia,ae f.
- \* terminal - subst. terminale,is n.
- \* upload - vt mittere (aliquid ad rete)
- \* value - subst. valor,oris m.
- \* variable - subst. (valor) variabilis,is m.; variabile,is n.
- \* vector - subst. index,indicis m., a jump through a vector - saltus per indicem
- \* window - subst. fenestra,ae f.
- \* wire - subst. filum,i n.
- \* word - subst. verbum,i n., long word - verbum longum
- \* wordprocessor - subst. (programma) editorium,i n.
- \* World Wide Web - subst. Tela,ae f. Totius Terrae (TTT)
- \* write - vt 1. to write a program - programma scribere (componere); 2. v. save
